### **Acknowledgment**

We would like to take this opportunity to thank Ken Arnold for his many years of dedication to his business, which for more than a decade was the manufacturer and sales of exact reproduction parts for antique Jukeboxes. Ken still cuts, shapes and prints most of the glass and plastic cabinet parts that are listed in this catalog.

As the exclusive distributor of “Ken Arnold brand” reproduction Jukebox parts we extend Ken’s policy on all of the parts that he manufactures.

“The best Quality and Guarantee in the business”.

For Your Safety, Ken sands the edges of all of the glass parts that he manufactures.

To ensure Originality, All colors have been formulated to match factory colors. Font styles have been regenerated by hand or by computer and Ken personally screen-prints in his own shop.

To ensure correct Fit, all Ken Arnold brand parts are manufactured to factory standards using original samples.

Unconditional Customer Satisfaction: Every part manufactured by Ken is guaranteed to be free of manufacturing defects for 5 years.

**How to Order:**

Phone orders from 9:00 am to 6:00 pm (Eastern time) Monday through Friday.

Our local phone number is 410-945-8900. For Orders, our toll free phone number is 1-888-850-6421.

Fax orders anytime 7 days a week. Our local Fax number is 410-945-1946. **FAX** transmissions ONLY.

Mail orders to A-1 Jukebox & Nostalgia, Inc. 208 S. Pulaski Street Suite 4J Baltimore, MD 21223-2952.

Email orders to **mail@jukeboxusa.com** and please include your ship-to address and phone numbers so we can contact you if necessary.

Secure On-line ordering will be available later this year. Until then please visit our web site: **jukeboxusa.com** for a complete list of jukebox parts and accessories.

Visit our warehouse In Person. Please call us in advance for directions. We enjoy meeting our customers.

**Privacy and Security:** The information that we have on file for our customers is held in the strictest confidence. We do not and will not sell or pass any customer private information to anyone at anytime for any reason!

Shipping: For orders weighing one pound or less we ship via US Postal Service (unless otherwise requested). For orders weighing over one pound we ship via UPS ground service (unless otherwise requested). Faster shipping via Postal Service or UPS is provided at the customer's request.

Shipping charges: We do not require a minimum order amount however, due to constantly rising costs, effective March 1, 2003, For ALL orders weighing one pound or less our shipping charge is \$4.00 per order. For ALL orders weighing over one pound, we add actual shipping charges to your order. There are three exceptions to this policy: (1) some of the items in our catalog require additional pre-packaging because they are extremely fragile; (2) in some cases an item is larger than normal carrier size for standard packages, (If an item requires an additional packaging and shipping charge, that charge is indicated next to the description for that particular item) and (3) for ALL orders shipped to countries outside the United States please add 5 additional US dollars to your shipping charge for completion of all of the paperwork associated with international shipments. If C.O.D. is requested, a fee of \$8.00 will be added to the regular shipping charges.

Upon receiving your order: We strongly recommend that you open your package(s) immediately to ensure that each item has been shipped correctly as per your order and to ensure that your order has not been damaged during shipping.

Payment: We accept Visa, Master Card, Discover, Business and Personal Checks with sufficient funds and paid through a USA bank in United States dollars, Money Orders, C.O.D. and of course Cash.

Catalog prices: Our current prices will not increase unless, for reasons beyond our control, our purchase prices increase. All prices subject to change without notice and we will do our best to keep our current prices intact.

Discounts: Volume discounts are available to anyone as follows: Purchase \$300.00 or more deduct 5%; \$700.00 or more deduct 10%; \$1,000.00 or more deduct 15%; \$3,000.00 or more deduct 20%. Volume discounts do not apply to shipping & handling charges, items currently on sale, catalog items marked NO DISCOUNT or original parts.

No hassle return Policy: If there is ever a problem with any item that you receive from us, please let us know as soon as possible so we can correct the problem to your satisfaction. Returns are a very rare occasion at A-1 Jukebox & Nostalgia; however if you ever have a return, please include a copy of the original invoice with the return.

| 96-021 | Mech. board 600 Rotary w/walnut veneer (add \$20 for pack. & ship.)                                                            | \$105.00 |
| 96-027 | Mech. board Victory 600 Rotary w/walnut veneer (add \$20 for pack. & ship.)                                                    | 120.00   |
| 96-028 | Mech. board Victory 600 Keyboard w/walnut veneer (+ \$20 for pack. & ship.)                                                    | 120.00   |
| 96-026 | Mech. board 800 with walnut veneer (add \$20 for packaging & shipping)                                                         | 95.00    |
| 96-029 | Mech. board 850 with walnut veneer (add \$20 for packaging & shipping)                                                         | 95.00    |
| 96-031 | Mech. board 1100 with laminated leather finish, gold border, Cobra decal & painted bottom, (add \$20 for packaging & shipping) | 165.00   |

**Please Note:** The 1100 mech. board will not be in production until April 2004

**WURLITZER KEYBOARD BUTTON SETS**

Exact reproductions, BEAUTIFUL! For models 1700 through 2310. All Letters & Numbers are heat stamped onto each button, as original, and each Clear cap is pre-set during production. (Each button is meticulously made in the U.S.A.)

A-1 PART #

|        |                                                                                                                       |          |
|--------|-----------------------------------------------------------------------------------------------------------------------|----------|
| 96-004 | Keyboard button set, model 1700, <u>reduced price</u> , complete set, no discount                                     | \$110.00 |
| 96-001 | Keyboard button set, specify: 1800; 1900; 2000; 2100; 2104; 2200; 2204; 2300; 2304 or 2310, complete set, No Discount | 150.00   |
| 96-002 | Large square keyboard buttons, (A; B; C and D only), for models: 1700; 1800; 1900 and 2104, 4 piece set, No Discount  | 75.00    |
| 96-003 | Keyboard button, red, with metal insert, for models: 3100 and 3200, each                                              | 3.00     |

**FUSES****A-1 PART #**

|        |                                                                             |        |
|--------|-----------------------------------------------------------------------------|--------|
| 97-001 | Fuse, AGC, (fast acting), specify: number of amps located on each fuse, ea. | \$ .50 |
| 97-002 | Fuse, MDL, (slo-blo), specify: number of amps located on each fuse, each    | .75    |
| 97-003 | Fuse, GMQ, (red cap), specify: number of amps located on each fuse, each    | 2.00   |
| 97-004 | Fuse holder for GMQ fuses, specify: ½, 8/10, 1 6/10 or 3 2/10 amps, each    | 5.00   |

**CAPACITOR KITS****CAPACITOR KITS for AMI**

For all Capacitor Kits: A label is attached to each component or a paper list is enclosed which indicates the original value or corresponds to the component # on the schematics parts list.

A-1 PART #

|        |                                                                                                                                              |         |
|--------|----------------------------------------------------------------------------------------------------------------------------------------------|---------|
| 92-001 | Capacitor kit, specify: AMi model A or B, Silver or Black                                                                                    | \$50.00 |
| 92-002 | Capacitor kit, specify: AMi model C through Cont. 2, (mono.)                                                                                 | 60.00   |
| 92-003 | Capacitor kit, specify: AMi model J through JAN, including Continental 1 & 2 (stereo)                                                        | 70.00   |
| 92-018 | Bridge rectifier, 25 amps. 400 volts, 4 posts and mounting hole, for use in power supplies, stereo amplifiers and credit units as applicable | 8.00    |

**CAPACITOR KITS & VOLUME CONTROL "POTS." for ROCK-OLA**

For all Capacitor Kits: A label is attached to each component or a paper list is enclosed which indicates the original value or corresponds to the component # on the schematics parts list.

A-1 PART #

|        |                                                                                                                                              |         |
|--------|----------------------------------------------------------------------------------------------------------------------------------------------|---------|
| 92-004 | Capacitor kit, specify: Rock-Ola model 1422, 1426 or 1428                                                                                    | \$50.00 |
| 92-005 | Capacitor kit for Pre-Amp., specify: Rock-Ola model 1422 or 1426                                                                             | 35.00   |
| 92-006 | Capacitor kit, specify: Rock-Ola model 1432 through 1475 (mono.)                                                                             | 60.00   |
| 92-007 | Capacitor kit, specify: Rock-Ola model 1460 through 418 (stereo)                                                                             | 70.00   |
| 92-018 | Bridge rectifier, 25 amps. 400 volts, 4 posts and mounting hole, for use in power supplies, stereo amplifiers and credit units as applicable | 8.00    |
| 91-001 | Volume control pot. for models 1446 through 1475 (mono.)                                                                                     | 24.00   |
| 91-002 | Volume control pot. models 1460 through 437 & some Seeburgs, (stereo)                                                                        | 24.00   |

**CAPACITOR KITS & VOLUME CONTROL "POTS." for SEEBURG**

For all Capacitor Kits: A label is attached to each component or a paper list is enclosed which indicates the original value or corresponds to the component # on the schematics parts list.

A-1 PART #

|        |                                                                                                                                |         |
|--------|--------------------------------------------------------------------------------------------------------------------------------|---------|
| 92-008 | Capacitor kit, specify: Seeburg amplifier model number MRA 1-2-3-4 or 5, PAU1, HFMA 1 or 2 or C1HFA1, (mono. amplifiers), each | \$60.00 |
|--------|--------------------------------------------------------------------------------------------------------------------------------|---------|

### **CAPACITOR KITS & VOLUME CONTROL "POTS." for SEEBURG (Continued)**

For all Capacitor Kits: A label is attached to each component or a paper list is enclosed which indicates the original value or corresponds to the component # on the schematics parts list.

#### A-1 PART #

|        |                                                                                                                                                                                                   |         |
|--------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------|
| 92-009 | Capacitor kit, specify: Seeburg amplifier model number SHFA 1-2-3-4 or 5, or C2HFA1, (stereo amplifiers), each                                                                                    | \$70.00 |
| 92-010 | Capacitor kit, specify: Seeburg wired selection receiver model number WSR5, WSR6 or WSR7                                                                                                          | 25.00   |
| 92-011 | Capacitor kit, specify: Seeburg "tormat selection receiver" model number TSR1-2-3 or 6, "tormat electronic unit" model number TEU1 or "tormat selector unit" model number TSU1 through TSU7, each | 35.00   |
| 92-016 | Capacitor kit, specify: Seeburg amplifier model # TSA1 through TSA10                                                                                                                              | 70.00   |
| 92-022 | Capacitor, specify: Seeburg receiver model number WSR5 through TSU7, (For Seeburg jukebox model numbers M100B through DS160), for operating the stepper which operates wallboxes, each            | 10.00   |
| 92-015 | Capacitor, mechanism motor start/run condenser, original style, (round metal can), for Seeburg models B through STD4 except SX100, each                                                           | 29.50   |
| 92-018 | Bridge rectifier, 25 amps. 400 volts, 4 posts and mounting hole, for use in power supplies, stereo amplifiers and credit units as applicable                                                      | 8.00    |
| 92-019 | Transistor PNP germanium, for Seeburg TSA1 – TSA10 amplifiers, auto speed units and Wurlitzer 546 – 553 amplifiers, each                                                                          | 10.00   |
| 92-020 | Transistor NPN silicon, for Seeburg SHP amplifiers & Wurlitzer 556 – amps.                                                                                                                        | 10.00   |
| 91-003 | Volume control pot. for models 146, 147, 148, A, B/BL, C, G, W & R                                                                                                                                | 24.00   |
| 91-004 | Volume control pot. models J/JL, V/VL, L100/101, KS/KD, Q & AY (mono.)                                                                                                                            | 24.00   |
| 91-002 | Volume control pot. (for stereo amplifiers): SHFA1, SHFA2, TSA1 through TSA10 and Rock-Ola models 1460 through 437                                                                                | 24.00   |

### **CAPACITOR KITS & VOLUME CONTROL "POTS." for WURLITZER**

For all Capacitor Kits: A label is attached to each component or a paper list is enclosed which indicates the original value or corresponds to the component # on the schematics parts list.

#### A-1 PART #

|        |                                                                              |         |
|--------|------------------------------------------------------------------------------|---------|
| 92-012 | Capacitor kit, specify: Wurlitzer model P-10 thru 600, or Countertop model # | \$55.00 |
|--------|------------------------------------------------------------------------------|---------|

### **CAPACITOR KITS & VOLUME CONTROL "POTS." for WURLITZER (Continued)**

For all Capacitor Kits: A label is attached to each component or a paper list is enclosed which indicates the original value or corresponds to the component # on the schematics parts list.

#### A-1 PART #

|        |                                                                                                                                              |         |
|--------|----------------------------------------------------------------------------------------------------------------------------------------------|---------|
| 92-013 | Capacitor kit, specify: Wurlitzer model 700 through 2500 (mono.)                                                                             | \$60.00 |
| 92-014 | Capacitor kit, specify: Wurlitzer model 2300 through 2800 (stereo)                                                                           | 70.00   |
| 92-018 | Bridge rectifier, 25 amps. 400 volts, 4 posts and mounting hole, for use in power supplies, stereo amplifiers and credit units as applicable | 8.00    |
| 92-019 | Transistor PNP germanium, for Seeburg TSA1 – TSA10 amplifiers, auto speed units and Wurlitzer 546 – 553 amplifiers, each                     | 10.00   |
| 92-020 | Transistor NPN silicon, for Seeburg SHP amplifiers & Wurlitzer 556 – amps.                                                                   | 10.00   |
| 91-005 | Volume control pot. for models 1400, 1500, 1600, 1700 & 1800                                                                                 | 26.00   |
| 91-006 | Volume control pot. for models 1900 through 2400 (mono.)                                                                                     | 26.00   |

### **OTHER CAPACITOR KITS AVAILABLE – CALL!**

### **TOOLS & LUBRICANTS**

#### A-1 PART #

|        |                                                                                                                                                          |         |
|--------|----------------------------------------------------------------------------------------------------------------------------------------------------------|---------|
| 98-001 | Spring tension gauge for measuring tone arm weight, (for most jukeboxes)                                                                                 | \$35.00 |
| 98-002 | Points file, superior quality tungsten                                                                                                                   | 2.50    |
| 98-003 | Contact, (points), adjuster, L shaped, chrome plated, best quality                                                                                       | 3.50    |
| 98-008 | Scriber, one end straight, one end L shaped, each end is threaded and removable for scribing a tight area, best quality, made in USA                     | 7.00    |
| 98-004 | Low voltage tester, 5 to 50 volts AC/DC, has indicator lamp & test leads                                                                                 | 4.50    |
| 98-005 | Luberplate, Aero lube, (white grease), for all models, 3/8 oz. tube                                                                                      | 1.50    |
| 98-006 | Lubricating oil, highest quality, genuine turbine oil, perfect for lubricating mechanisms and motors, 4 oz. plastic bottle with 9" telescoping extension | 2.50    |
| 98-007 | "PB Blaster", best penetrating fluid & release agent for loosening any "frozen" metal parts, especially Seeburg mechanisms, 12 oz. aerosol can           | 6.50    |

### **POLISH FOR PLASTICS AND METALS**

Novus plastic polish: for cleaning and restoring plastics. Recommended for Use on: Plexiglas, Lexan, Lucite, Uvex and Acrylite. **Please Note:** The ideal polishing cloth is nonabrasive, absorbent, lint free and disposable. Reusable cloths retain abrasive particles that will scratch plastic surfaces. Always use a new polishing cloth.

#### A-1 PART #

- |        |                                                                                                                                                                                                                                          |        |
|--------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------|
| 50-001 | Novus #1, gently cleans, shines & protects all plastic surfaces without scratching. Resists fogging, repels dust & eliminates static, 8 oz. non-aerosol pump bottle                                                                      | \$5.00 |
| 50-002 | Novus #2, removes fine scratches, haziness & abrasions from most plastics restores faded and discolored plastics, 8 oz. squeeze bottle                                                                                                   | 6.00   |
| 50-003 | Novus #3, removes scratches and abrasions from most acrylic surfaces. Use Novus #3 when surface is too damaged to be restored using Novus #2, the use of Novus #3 requires the use of Novus #2 for final finishing. 8 oz. squeeze bottle | 7.00   |
| 50-004 | Maas metal polishing cream is made with a base of jeweler's rouge. It Cleans, polishes & preserves chrome, aluminum, stainless steel, etc., 2 oz. tube                                                                                   | 5.00   |
